www.earlcoate.co.uk   

Scope of work:

Design and construction of a galvanised steel 115m long structure, to serve 76 straddle carrier bays, four storeys high with access stairways, wheel stops and wheel guides.

Walkway and access lighting, warning lights, installation of security turnstiles, CCTV and lightning protection. Reconstruction of 4,500m² of 300mm thick pavement quality concrete together with associated slot drainage, water main works and ISPS security fencing.

Our plant included:

- mobile crane
- Komatsu HB365 hybrid
- Hitachi ZX170W
- Volvo A25 dump truck
- telehandlers and MEWP's.
